**Acceptance letter for Dr. Ricardo Mathias Orlando**

I hereby confirm that I will accept Dr. Ricardo Mathias Orlando to conduct a research stay at the Institute of Analytical Chemistry of the Czech Academy of Sciences in Brno – Czech Republic under my supervision, starting 03/2023 to 01/2024 (11 months). The research stay will be financially supported by the CAPES program (Federal University of Minas Gerais, Brazil). The proposed workplan "Contamination of surface and groundwater: use of sample preparation techniques based on electric fields for sample clean-up and ultra pre-concentration of organic pollutants" is in line with our current research topics. The laboratory has all the necessary facilities and instrumentation for the execution of the project. The research stay and the laboratory work will be conducted in English language.

RNDr. Pavel Kubáň, Ph.D. DSc.  
Research Professor  
Head of the Department of Electromigration Methods  
Institute of Analytical Chemistry of the Czech Academy of Sciences  
Veverí 97  
60200 Brno  
Czech Republic
